

CSC435 Project – OCT 2021

Specification

In a group of 2-3 persons, you are required to develop a Java GUI application. You can build any type of application. Your GUI application **MUST HAVE AT LEAST** the following JComponents:

- a) JButton
- b) JCheckBox or JRadioButton
- c) JTextField or JTextArea
- d) JLabel

Marking Scheme

The project presentation will be conducted during the study week. I will post the link to submit your project to the Telegram group.

Extra marks will be given if your application can read or write to a text file.

Presentation marks:

Clea r	/5
QnA	/5
Tota l	/10

Report:

Introduction	/5
Application User Manual	/5
Originality / Creativity / Complexity	/10
Total	/20

Report format

- 1) Project report cover (*given below*).
- 2) Introduction to the project.
- 3) Application User Manual. (*Screenshots with description on how to use the application*)
